About Me

As someone interested in computer science and programming, I can offer my skills and experience in this field. I have a knack for quick learning, and I pursue it with passion. I possess the knowledge and skills necessary for designing, creating, and maintaining applications and computer systems. I can work with various programming languages as well as different tools and technologies. Furthermore, I am meticulous and thorough, always striving to achieve intended goals. I am eager to contribute to teamwork and take on challenges associated with the development and innovation within your company.

Projects (Available at kamil-banaszek.pl)

Casino (roulette) with the ability to log in through Steam, live betting feature, created using Node.js, React.js with MySQL database system.

Tic-Tac-Toe game with Min-Max algorithm implementation with Alpha-Beta pruning.
